#### 1. BASIS OF PRESENTATION

The interim Consolidated Financial Statements include the accounts of EnCana Corporation and its subsidiaries ("EnCana" or the "Company"), and are presented in accordance with Canadian generally accepted accounting principles. The Company is in the business of exploration for, and production and marketing of, natural gas, crude oil and natural gas liquids, as well as natural gas storage, natural gas liquids processing and power generation operations.

The interim Consolidated Financial Statements have been prepared following the same accounting policies and methods of computation as the annual audited Consolidated Financial Statements for the year ended December 31, 2005, except as noted below. The disclosures provided below are incremental to those included with the annual audited Consolidated Financial Statements. The interim Consolidated Financial Statements should be read in conjunction with the annual audited Consolidated Financial Statements and the notes thereto for the year ended December 31, 2005.

#### 2. CHANGE IN ACCOUNTING POLICIES AND PRACTICES

On January 1, 2006, the Company adopted Emerging Issues Task Force ("EITF") Abstract No. 04-13 - Accounting for Purchases and Sales of Inventory with the Same Counterparty. As of January 1, 2006, purchases and sales of inventory with the same counterparty that are entered into in contemplation of each other are recorded on a net basis in the Consolidated Statement of Earnings. This change has been adopted prospectively and has no effect on the net earnings of the reported periods.

#### 3. SEGMENTED INFORMATION

The Company has defined its continuing operations into the following segments:

- Upstream includes the Company's exploration for, and development and production of, natural gas, crude oil and natural gas liquids and other related
  activities. The majority of the Company's Upstream operations are located in Canada and the United States. Frontier and international new venture
  exploration is mainly focused on opportunities in Chad, Brazil, the Middle East, Greenland and France.
- Market Optimization is conducted by the Midstream & Marketing division. The Marketing groups' primary responsibility is the sale of the
  Company's proprietary production. The results are included in the Upstream segment. Correspondingly, the Marketing groups' also undertake market
  optimization activities which comprise third party purchases and sales of product that provide operational flexibility for transportation commitments,
  product type, delivery points and customer diversification. These activities are reflected in the Market Optimization segment.
- Corporate includes unrealized gains or losses recorded on derivative instruments. Once amounts are settled, the realized gains and losses are recorded
  in the operating segment to which the derivative instrument relates.

Market Optimization purchases substantially all of the Company's North American Upstream production for sale to third party customers. Transactions between business segments are based on market values and eliminated on consolidation. The tables in this note present financial information on an after eliminations basis.

Operations that have been discontinued are disclosed in Note 4.

## 4. DISCONTINUED OPERATIONS

## Midstream

On December 13, 2005, EnCana completed the sale of its Midstream natural gas liquids processing operations for total proceeds of \$625 million (C\$720 million). The natural gas liquids processing operations included various interests in a number of processing and related facilities as well as a marketing entity. A gain on sale of approximately \$370 million, after-tax, was recorded.

During the fourth quarter of 2005, EnCana decided to divest of its natural gas storage operations. EnCana's natural gas storage operations include the 100 percent interest in the AECO storage facility as well as facilities in the United States. On March 6, 2006, EnCana announced that it had reached an agreement to sell the gas storage operations for \$1.5 billion. The sale to a single purchaser is subject to closing conditions and applicable regulatory approvals and is expected to close in two stages. The first stage of the sale is expected to close in the second quarter of 2006 for proceeds of \$1.3 billion. The second stage will close following receipt of regulatory approvals.

### Ecuador

At December 31, 2004, EnCana decided to divest of its Ecuador operations and such operations have been accounted for as discontinued operations. EnCana's Ecuador operations include the 100 percent working interest in the Tarapoa Block, majority operating interest in Blocks 14, 17 and Shiripuno, the non-operated economic interest in relation to Block 15 and the 36.3 percent indirect equity investment in Oleoducto de Crudos Pesados (OCP) Ltd. ("OCP"), which is the owner of a crude oil pipeline in Ecuador that ships crude oil from the producing areas of Ecuador to an export marine terminal. The Company is a shipper on the OCP Pipeline and pays commercial rates for tariffs. The majority of the Company's crude oil produced in Ecuador is sold to a single marketing company. Payments are secured by letters of credit from a major financial institution which has a high quality investment grade credit rating.

In accordance with Canadian generally accepted accounting principles, depletion, depreciation and amortization expense has not been recorded in the Consolidated Statement of Earnings for discontinued operations.

On February 28, 2006, EnCana completed the sale of its interest in its Ecuador operations for \$1.4 billion which is subject to a final statement of adjustment to be received in the second quarter. A loss on sale of approximately \$47 million, after-tax, was recorded.

(All amounts in \$ millions unless otherwise specified)

## Contingencies

EnCana has agreed to indemnify the purchaser of its Ecuador interests against losses that may arise in certain circumstances which are defined in the share sale agreements. The obligation to indemnify will arise should losses exceed amounts specified in the sale agreements and is limited to maximum amounts which are set forth in the share sale agreements. At this point it is not possible to predict whether any indemnification payments will be required to be made to the purchaser.

## 5. DIVESTITURES

Total proceeds received on sale of assets and investments was \$255 million (2005 - \$53 million) as described below:

### Upstream

in 2006, the Company has completed the disposition of mature conventional oil and natural gas assets for proceeds of \$11 million (2005 - \$53 million).

### Market Optimization

In February 2006, the Company sold its investment in Entrega Gas Pipeline LLC for approximately \$244 million.

#### Normal Course Issuer Bid

To March 31, 2006, the Company purchased 21.3 million Common Shares for total consideration of approximately \$978 million. Of the amount paid, \$177 million was charged to Share capital and \$801 million was charged to Retained earnings.

EnCana has obtained regulatory approval each year under Canadian securities laws to purchase Common Shares under four consecutive Normal Course Issuer Bids ("Bids") which commenced in October 2002 and may continue until October 30, 2006. EnCana is entitled to purchase, for cancellation, up to approximately 85.6 million Common Shares under the renewed Bid which commenced on October 31, 2005 and will terminate no later than October 30, 2006.

### Stock Options

The Company has stock-based compensation plans that allow employees and directors to purchase Common Shares of the Company. Option exercise prices approximate the market price for the Common Shares on the date the options were issued. Options granted under the plans are generally fully exercisable after three years and expire five years after the grant date. Options granted under predecessor and/or related company replacement plans expire up to ten years from the date the options were granted.

The following tables summarize the information about options to purchase Common Shares that do not have Tandem Share Appreciation Rights ("TSAR's") attached to them at March 31, 2006. Information related to TSAR's is included in Note 12.

## Amounts Recognized on Transition

Upon initial adoption of the current accounting policy for risk management instruments on January 1, 2004, the fair value of all outstanding financial instruments that were not considered accounting hedges was recorded in the Consolidated Balance Sheet with an offsetting net deferred loss amount (the "transition amount"). The transition amount is recognized into net earnings over the life of the related contracts. Changes in fair value after that time are recorded in the Consolidated Balance Sheet with an associated unrealized gain or loss recorded in net earnings.

At March 31, 2006, a net unrealized gain remains to be recognized over the next three years as follows:

	Un	realized
2006		Gain
Three months ended June 30, 2006	\$	7
Three months ended September 30, 2006		7

#### 15. CONTINGENCIES

#### **Legal Proceedings**

The Company is involved in various legal claims associated with the normal course of operations. The Company believes it has made adequate provision for such legal claims.

## **Discontinued Merchant Energy Operations**

### California

As disclosed previously, in July 2003, the Company's indirect wholly owned U.S. marketing subsidiary, WD Energy Services Inc. ("WD"), concluded a settlement with the U.S. Commodity Futures Trading Commission ("CFTC") of a previously disclosed CFTC investigation whereby WD agreed to pay a civil monetary penalty in the amount of \$20 million without admitting or denying the findings in the CFTC's order.

EnCana Corporation and WD are defendants in a lawsuit filed by E. & J. Gallo Winery in the United States District Court in California, further described below. The Gallo lawsuit claims damages in excess of \$30 million. California law allows for the possibility that the amount of damages assessed could be tripled.

Along with other energy companies, EnCana Corporation and WD are defendants in several other lawsuits relating to sales of natural gas in California from 1999 to 2002 (some of which are class actions and some of which are brought by individual parties on their own behalf). As is customary, these lawsuits do not specify the precise amount of damages claimed. The Gallo and other California lawsuits contain allegations that the defendants engaged in a conspiracy with unnamed competitors in the natural gas and derivatives market in California in violation of U.S. and California anti-trust and unfair competition laws.

In all but one of the class actions in the United States District Court and in the Gallo action, decisions dealing with the issue of whether the scope of the Federal Energy Regulatory Commission's exclusive jurisdiction over natural gas prices precludes the plaintiffs from maintaining their claims are on appeal to the United States Court of Appeals for the Ninth Circuit.

Without admitting any liability in the lawsuits, in November 2005, WD has agreed to pay \$20.5 million to settle the class action lawsuits that were consolidated in San Diego Superior Court, subject to final documentation and approval by the San Diego Superior Court. The individual parties who had brought their own actions are not parties to this settlement.

### New York

WD is also a defendant in a consolidated class action lawsuit filed in the United States District Court in New York. The consolidated New York lawsuit claims that the defendants' alleged manipulation of natural gas price indices affected natural gas futures and option contracts traded on the NYMEX from 2000 to 2002. EnCana Corporation was dismissed from the New York lawsuit, leaving WD and several other companies unrelated to EnCana Corporation as the remaining defendants. Without admitting any liability in the lawsuit, WD has agreed to pay \$8.2 million to settle the New York class action lawsuit, subject to final documentation and approval by the New York District Court.

Based on the aforementioned settlements, a total of \$30 million has been accrued. EnCana Corporation and WD intend to vigorously defend against the remaining outstanding claims; however, the Company cannot predict the outcome of these proceedings or any future proceedings against the Company, whether these proceedings would lead to monetary damages which could have a material adverse effect on the Company's financial position, or whether there will be other proceedings arising out of these allegations.
